NO NEW RE-ENTRY PERMITS WILL BE ISSUED THIS YEAR!

The 2008-2009 re-entry passes issued by Dare County Emergency Management in June 2008 will remain valid for 2010-2011.

Re-entry passes are used for fast identification at check points following an emergency evacuation; however, all Dare County residents and property owners will be allowed re-entry at the appropriate time with proper identification. For Dare County residents, this requires a valid driver's license with a local address. Property owners must show a recent tax receipt in their name along with a valid driver's license. A tax receipt may be printed out from the Tax Certification web site.

If Dare County is threatened by a hurricane, notice of an impending evacuation will be provided in a variety of ways including print media, radio, television including the official local government access channel found on local cable channel 20 and the Dare County website at www.darenc.com.

Following a storm, the same media will be used to announce when conditions allow re-entry. Depending on the severity of the storm, re-entry may be allowed on a staged basis to ensure the protection of people and property.

In addition, specific routes to the Outer Banks may be necessary to access different areas of the county, so it is important to call 877-629-4386 or 252-475-5655 for detailed re-entry information following an evacuation.
